

Concept for the realization of the German Cup from 13.07 - 17.07.2021 in Freiburg im Breisgau, Germany.

All athletes, coaches, accompanying persons, judges and officials are obligated to implement the specifications of the implementation concept. The requests to implement the official requirements must be followed. Non-compliance will inevitably lead to expulsion from the sports grounds.

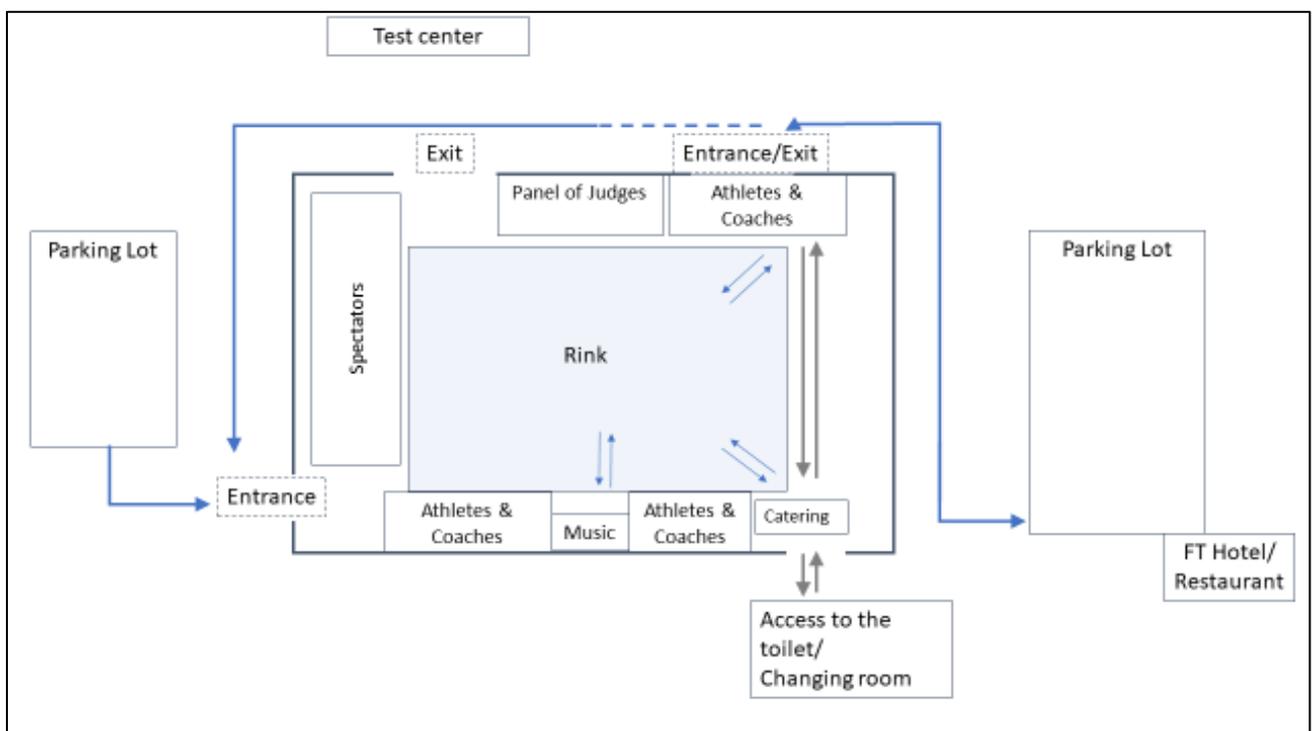

The following regulations have been established by the Freiburg Gymnastics Association (FT 1844 e.V.) in order to reduce the risk of infection due to the COVID19 pandemic, taking into account the legal requirements:

- There is a daily rapid test obligation for all athletes, accompanying persons, coaches, judges and officials, unless they have a vaccination certificate (14 days after booster vaccination) or recovery status. These are valid 24 hours. Thus, the negative result of the antigen rapid test will be checked at the entrances. Through cooperation with a nearby testing center, rapid testing can be done directly at the FT area. For this free citizen test, the persons involved have to book an appointment on the following website: <https://coronatest-dreifeldhalle.ticket.io/u8qmru7l/?cryptedId=u8qmru7l&onlyTag=kostenlos&lang=de>. Please consider that you get the result 15 mins after the test. The extent to which testing is possible before 8 am is still being clarified. If this cannot be offered via the test center, we will give people who are in the venue earlier the opportunity to take a test under supervision.
- Assistance for this appointment booking can be requested at the entrances from the volunteers.
- The wearing of a **medical mask** is obligatory for everyone during the entire time spent in the venue. Exception: During the warm-up as well as on the rink itself, the mask obligation is cancelled for the athletes.
- **A maximum of 2 accompanying persons per athlete are allowed as spectators for the competition (not for the training) plus the accredited coaches.**
- The venue will be regularly aired by opening the windows.
- We ask for proper hand hygiene and adherence to cough and sneeze etiquette. Disinfection dispensers will be provided in the various areas for this purpose.
- We ask all attendees to keep a minimum distance of 1.5 m and to respect the different areas for

athletes/coaches, adjudicators and for accompanying persons.

- The entry and exit of the venue will not be via the main entrance of the FT 1844 as usual, but as the following plan shows, via the rear entrance of the venue or the left sliding door at the glass front. The walkways are marked accordingly in the venue. The chairs will be placed with a distance of 1.5 m.

- After each competition, the area of accompanying persons (spectators) will be cleared and re-registered at the entrance. Also the athletes have to leave the rink to enable the following competition to take place.
- Catering: There will be a beverage offer as well as a small snack offer in the venue. Please respect the minimum distance when queuing here as well.
- There will be no opening ceremony.
- The starting order and the results will be announced online. There will be no display in the hall to avoid crowds.
- Award Ceremonies: Only the top 3 finishers will be honored. For this, the medals will be placed on the winners' podium in advance, and the athlete will take them themselves when they get on the podium.

- **The documentation of all attendants will be done at the different entrances.** On the one hand, the status (Vaccinated, Convalescent or Tested) will be checked daily and on the other hand, everyone will sign in a prepared list with the contact tracing data (first and last name, nationality, phone number).
- The organizer is to be informed immediately in case of a suspected case of a COVID-19 disease and the visit of the event is prohibited with immediate effect. Furthermore, the organizer and host must be informed immediately if.
 - 1.) a contact with a person infected with the Corona virus has existed or exists, if 14 days have not yet passed since the last contact, or
 - 2.) the typical symptoms of a COVID-19 infection exist, such as smell and taste disturbances, fever, cough or sore throat.
- If you need a PCR-Test for your travel home, there's a test station near the rink (20 mins by feet):

Adress:

Corona Schnelltest-Zentrum Freiburg Waldsee
Waldseestraße 84
(Vor der Gaststätte Waldsee)
79117 Freiburg
Hotline: 0761 88148545

The persons involved have to book an appointment under the following adress:
<https://coronaschnelltest-freiburg.ticket.io/9es28pje/?onlyTag=pcr>.

The costs for this tests are 87 € each.
